

PEACE YET POSSIBLE

DETAILS BEING CAREFULLY ARRANGED.

The Chances For Peace Look More Promising — Lord Minto Not Pleased.

London, Aug. 23.—A newspaper representative asked Lord Minto what he thought of the remarks of prominent Canadian papers, that he was not a big enough man for Viceroy of India. His Lordship replied with bitter irony "Ah, that is very kind of them."

St. Petersburg, Aug. 23.—Czar Nicholas hurried back from manoeuvres this afternoon to Peterhof palace to receive from the American ambassador a long cablegram addressed by President Roosevelt personally to his majesty. The Czar's decision has not yet been given but it is known that he refuses to entertain anything that might be construed as the payment of an indemnity and, therefore, there seems to be small hope that a compromise will be reached on the lines suggested by Roosevelt.

New York, N.Y., Aug. 24.—The final discussion has been postponed again as the whole day was taken up with a discussion by the secretaries of the peace wording of the protocol and the plenipotentiaries did not get together again after the opening of the morning sitting. All this care in the drawing up of points already agreed upon gives rise to the hope that the door is not yet shut to peace. Neither party appears willing to consent to a division of Sakhalin island as that would provide continuous frontier which would be apt at any time to provide friction.

WITTE AND ROSEN TOGETHER

Portsmouth, Aug. 23.—President Roosevelt is energetically continuing his efforts to save the conference from shipwreck. The sensation of the day was a mysterious visit paid by M. Witte and Baron Rosen to the navy yard where Mr. Pierce delivered to them a message in writing from President Roosevelt which had been brought from Oyster Bay by a confidential messenger named McGaw. Then for about four hours M. Witte and Baron Rosen remained at the yard, and it is believed, were in direct or indirect communication. It is assumed the president's message was the result of Baron Kaneko's visit to Oyster Bay.

TERMS OF PEACE

The substance of the terms of peace laid down by the Japanese are as follows:

1 Russia's recognition of Japan's preponderant influence in Korea, with her right to preserve order in the civil administration, give military and financial advice to the Emperor of China, Japan binding herself to observe the territorial integrity of the Hermit Kingdom, and it is believed the policy of the "open door." Accepted.

2 Mutual obligation to evacuate Manchuria. Accepted.

3 Japanese obligations to restore in Manchuria Chinese sovereignty and civil administration. Accepted.

4 Mutual obligation to respect in future "the territorial integrity and administration entity" of China in Manchuria, and to maintain the principle of equal opportunity for the industry and commerce of all nations, (open door, 2). Accepted.

5 The cession of the Island of Saghalien to Japan. Refused, and final consideration deferred.

6 The surrender to Japan of the Russian leases of the Liao-Tung Peninsula, including Port Arthur, Dalian and the Blonde and Elliot Islands. Accepted.

7 The surrender to China, by agreement with Japan, of the branch of the Chinese Eastern Railroad running south from Harbin to Port Arthur and New-Chwang, together with the retrocession of all the privileges obtained under the concession of 1898. Accepted in principle; final agreement deferred.

8 The limitation of the Chinese concessions obtained by Mr. Rothstein and Prince Ukhomsky in 1896

under which the "cut-off" through Northern Manchuria was built to connect the Trans-Siberian and the Ussuri Railroads so as to provide for the retention of the ownership and operation of the line by the Eastern, but with provision for the eventual substitution of the Chinese Imperial police for Russian railroad guards. Accepted.

9 Remuneration for the cost of the war, refused and action deferred.

10 The surrender of the Russian warships interned in neutral far eastern waters. Disagreement, and action deferred.

11 The limitation of Russian warships on Pacific waters. Action deferred.

12 The grant to the citizens of Japan of the right to fish in the waters of the Russian littoral from Vladivostok north to Behring Sea. Accepted.

RUSSIA TO REDUCE TARIFFS

St. Petersburg, Aug. 23.—It is stated that M. de Witte soon will make an official announcement to the United States of a reduction by Russia in the duties on American machinery, tools, etc., which have been operative since 1901. Ambassador Meyer secured this concession after extended negotiations with the ministers of finance and foreign affairs.

RAILWAY DEVELOPMENT.

Chicago, Ill., Aug. 23.—Six representatives of the Imperial railway system of Japan arrived in Chicago and left for New York, via the great lakes. They are in America to study the American locomotives and to purchase railway supplies. From New York they go to England, thence to France and Germany. One of the party, Toki Oyata, said:

"Japan is preparing to expend over \$30,000,000 in railway supplies, and the bulk of these will be secured in the United States and England. I think these two countries lead all others in this respect."

REDUCED GRAIN RATES

St. Paul, Aug. 23.—The Great Northern Railway company announces a sweeping reduction in grain rates throughout its eastern territory extending to the boundary of Montana. The new rates will add millions to the potential resources of the farmers of the northwest. They are not made in pursuance of any pressure, but as a voluntary act.

This reduction of rates ranges from five cents per hundred from most distant points to half a cent from points nearest the Twin Cities, and the head of navigation on the great lakes. From Williston the reduction is five cents. On the Granville branch, Towner branch, line from Rugby to Antler, branch from York to Thoren, the Dakota branch, now extended to Saries, the rates are cut three cents. This covers an immense stretch of country, much of it recently brought under cultivation in North Dakota.

From Minot to the head of the lakes, from Grand Forks and Fargo and Hillsboro, on the Hannah line, running north from Larimore, on the Neche line and St. Vincent line, the reduction is two cents per hundred, and on the St. John line, running from Church's ferry, and the Wahalla line, it is two and one-half cents.

Dispatches from Omaha state that the Burlington has made a general cut in grain rates, following the action of the Great Western, which cut in the grain rate from Omaha to Chicago on wheat from 12 cents to 10 1-2, and on corn from 11 cents to 9 1-2 cents.

The Burlington has cut its rates 4 cents, making the rate from Omaha to Chicago on wheat 8 cents, and on corn 7 cents.

THE TARIFF COMMISSION

TO BEGIN WORK IN THE WEST

Fielding, Cartwright, Paterson, and Brodeur the Members—Cartwright Will Not Come West.

Ottawa, Aug. 23.—Prince Louis of Battenburg, has wired acceptance of the government's offer to entertain the visiting detachment of Blue-jackets in Ottawa for three days. They will arrive here tomorrow afternoon.

The tariff commission will commence its work almost immediately, starting, in all probability, in the West. Owing to the long journey involved, and the time required for consideration of the information, its utilization for the next session will be found impossible unless the government postpones the session. The commissioners are Hon. W. S. Fielding, Sir Richard Cartwright, Hon. Wm. Paterson, and Hon. L. P. Brodeur. Sir Richard Cartwright will only attend the sittings in central Canada. The Governor-General and party will probably start for Edmonton on Saturday.

G. T. P. CONTRACTS

The Grand Trunk Pacific divisional engineer in Winnipeg is engaged in organizing cross-section engineering parties preparatory to awarding contracts for construction. Several Winnipeg contractors are now in Montreal bidding on the work. All the leading contractors have received invitations to tender for the whole or part of the work in the west. It is understood that contracts will be awarded within the next few days. The Railway Commission has approved location plans for eighty miles of the branch from Fort William, connecting with the main line of the new Transcontinental highway. It is expected the first contracts will be awarded about September 18th.

JAPAN BUYING OUR CATTLE

Montreal, Aug. 24.—J. Nisimura and Dr. Y. Ishizaki, delegates from the Japanese Government, who are now here, have purchased a herd of Canadian cattle, consisting of about 40 head of Ayrshires, Shorthorns, Devons and Holsteins, for shipment to Japan. This will be the first shipment of Canadian cattle to Japan, and it will leave via the C.P.R. steamer, Ottoman from Vancouver on September 18.

CONSERVATIVES SUPPORT HAULTAIN.

Regina, Aug. 23.—The Conservative convention, after an acrimonious discussion, has decided to fight the Saskatchewan provincial elections on no-party lines, and to support any candidate irrespective of party affiliations who is pledged to support Haultain and provincial rights. A platform was adopted which declares that the first duty of the new government will be to carry the disputed provisions of the autonomy bills before the highest court in the empire. Senator Parley, together with several of the delegates, refused to vote for the abandonment of party lines, but the great majority of the delegates were for Haultain and gave him a great ovation when he rose to address the convention.

LIBERAL NOMINATION.

At the Liberal convention held at Leduc on Tuesday Mr. W. Telford was nominated as the Liberal candidate at the ensuing provincial election. Two names went to ballot, that of Mr. Telford and Mr. Baker. When the former was chosen Mr. Baker moved that the nomination be made unanimous and it was carried amid enthusiasm.

Ladies' Blouses AT A BIG Reduction

As our fall blouses are now arriving, we are going to clear out the balance of our summer stock, and to do this we are placing on the bargain counter the following lines at genuine bargain prices. We would advise you to come early before the size you want is sold.

LADIES' WHITE LAWN BLOUSES 6 Dozen white Lawn Blouses, all new goods, and good value at \$1.50 and \$1.75, to clear \$1.00.

LADIES' CASHMERE BLOUSES 3 Dozen Blouses in Cashmere, Mohair, fancy cashmere stripes, and French Hannel; these are splendid goods, but the sleeve is not quite correct. The regular prices run from \$3.50 to \$5.25, but we are clearing them off at only \$2.00.

Come early while we have your size.

THURSDAY, AUGUST 24, 1905.

OUR CELEBRATION

Edmonton will do herself proud on September the first. The citizens are entering heartily into the preparations for the inauguration celebration, and no effort is being spared to make the event worthy the occasion.

The different committees are working diligently and harmoniously at the duties assigned to them, and the individual citizens are impelled by a patriotism to the young province to do their best to help the celebration to a successful issue. There is much to be done yet, but it can all be accomplished in the time, and it takes no prophet now to determine that the first day of September, 1905, will be one long to be remembered in Edmonton's history.

The secretary of the central committee and the chairmen of the different committees, as well as many of the members of the same, deserve especial credit for the way in which they have taken this matter up and given it their time and attention.

NOTES AND COMMENTS

Get the weeds out in front of your place before the first.

It's a far cry from Premier Haultain, the non-party man, to Bennett, the C. P. R. solicitor.

Some Conservative newspapers speak of political graft as one having authority, or rather, experience.

"Unanimously accepted" is the endorsement that might with propriety be made upon the extra sessional indemnity. The books have been closed at the accountant's office in the House of Commons. The entry, \$218,000, has been paid out by cheque and not a dollar of it has been refused.

Some years ago there was made public a letter written in January 1896, by a young lawyer of Newcastle N.B., by the name of R. B. Bennett, to Dr. R. C. Weldon, then M.P. for Albert, in which the opinion was expressed that the remedial legislation proposed by the Dominion Government was all right, and urging Dr. Weldon to enter the Dominion Government and aid in putting it through. Is it possible that the R. B. Bennett who wrote this letter is the R. B. Bennett who is now cavorting about in Alberta on the back of the Protestant horse—Winnipeg Free Press.

London Sensation

London, Eng., Aug. 23.—A great sensation has been created by the arrest of Hugh Watt, a financier and formerly a member of Parliament for the Camphic division of Glasgow on the charge of attempting to procure a private detective to assist in the murder of his former wife. Detective Marshall testified in a police court today that Watt offered him \$25,000 if he would induce the woman to come to Watt's flat where he proposed to kill her by the administration of chloroform and then to remove the smell of the chloroform with peppermint. Watt was remanded for trial on bail of \$3,000. The police found both chloroform and peppermint in Watt's apartments. Watt was prominent in the divorce court some years ago when his wife sued for a divorce, the co-respondent being Lady Violet Beauchamp, daughter of the late Lord and Lady Roden, and the divorced wife of Sir Reginald Beauchamp, whom Watt has since married. Since the granting of the divorce, Watt and his former wife have been in the law courts regarding their marriage attempts and much bitterness has resulted from the litigation. A couple of weeks ago the parties appeared in a police court. Watt charged the woman with having conspired and violently ejected him from her house where he said he went for the purpose of trying to compromise their business disagreements.

NO COMMISSION

Hon. H. R. Emmerson, Minister of Railways, who has been on a tour of inspection with Deputy Minister Butler and several I. C. R. officials, was

asked about the Globe's suggestion for a commission to manage the In-tercolonial. The Minister said there was no move within the Government in that direction. The Government intend to operate the road and do so in the interests of the people, but with the minimum of expenditure; the idea being to keep the equilibrium as nearly as possible between the receipts and expenditures, and the officials' present tour was to see where expenses might be reduced.

He said that in making up the next running schedules in this section, the cutting off of some trains might be considered, as there have been no doubt too many trains in proportion to the traffic.

ATTENTION, VETERANS

The Imperial Service Medal Association of Alberta has been assigned a place in the Inaugural Parade which takes place at Edmonton on September 1st. It is desired that as large an attendance as possible of members will be present on that occasion. Every man who possesses a medal is asked to join the parade, and signify his intention by communicating with the Hon. Sec., Will Godson, Strathcona, giving the name of his regiment and his service. As it will add greatly to the appearance of the parade, it is requested that as many men as possible take part mounted and in uniform. It is further asked that those who can come on horse-back will please inform the secretary. This Association was formed about ten weeks ago and already numbers over one hundred members. The Indian Mutiny, the Fenian Raid, Indian Frontier, the Wolseley Expedition, the Nile Expedition, North West Rebellion, Matabele and Boer Wars, and many other medals are represented in the Association. The officers of the Association would like to see every man who has served in the army or navy and who holds an active service medal for same, join the Association. They take this opportunity of asking all such to communicate with Will Godson, Hon. Sec., Strathcona, who will be glad to furnish any information regarding the Association.

The Other Side

The Minneapolis Tribune makes the following very pertinent remarks about the Chinese boycott of American goods:

"We shall understand the Chinese boycott of American trade best by trying to put ourselves in the place of the Chinese. It is well known that certain classes of Americans are unpopular in China, missionaries, traders, miners, exploiters, persons who interfere with the established institutions and outrage the sacred traditions of the country. Time was when these were excluded from all of China; they are admitted now only to parts of it.

Suppose we had agreed to the exclusion from all of China of certain classes of Americans, carefully specified in treaty. Suppose China has passed a law to carry out the treaty containing certain administrative provisions to distinguish between Americans of the class specified in the treaty and other Americans. Suppose that travelers for pleasure or instruction, scientific explorers and other students, public officials on duty or otherwise, professional men and merchants, not intending to engage in business in China, were permitted by law to travel freely to all parts of the empire.

We should not object to the enforcement in China of proper regulations for distinguishing between travelers of the excluded and travelers of the admitted classes. The latter would gladly submit to examination in Chinese ports. But suppose this examination were made with coarse brutality and blind want of discrimination. Suppose sons of American senators and cabinet ministers travelling in China were roughly handled, stripped for indecent bodily inspection, shut up for ten days with storage passengers in immigrant houses of detention and forced to give bonds not to engage in prohibited employments in China.

Sons of Chinese nobles and imperial officials, bearing letters from American ambassadors in Europe, have been treated in just this way. That is the main cause of the boycott. What should we do about it if the cases were reversed?

Learn Trades

Booker T. Washington, speaking at the convention of the National Negro Business League, strongly advised his fellow negroes to learn trades. Mr. Washington said in part:

"We must pay the price for everything we get. Our tangible achievement in creative efforts will go further than any recital of wrongs we may make. Instead of blaming somebody for not providing decent houses for us to occupy let us turn our attention to acquiring some of the millions of unoccupied acres of land in this country, and to creating for ourselves decent surroundings and comfortable homes. Instead of complaining because work is denied in certain quarters, let us turn our attention to a large measure to the fundamental sources of all occupations; that is, create out of the soil, out of wood, mineral and water, the products the world wants. This policy will make us creators of jobs and not mere seekers after jobs. We should let no influence turn our eyes from the fact that while wrong and injustice often touch our lives, the masses of our people are dependent upon the white people of the south, to a large degree for employment, education and the protection of life and property. We should see that no fire of racial hostility is lighted. Ten million members of our race, the great masses, are in the South, and there in my opinion, they will remain. There is a group of white men in the south, however little we may hear of them at a distance, who are constantly exerting themselves to help forward our cause and we should see that no action on our part embassies them or makes their task more difficult."

A Sulphur Mine

An American company has purchased the huge volcano, Popocatepetl from the Mexicans and are about to mine its great sulphur deposits. It is calculated that there are 120,000,000 tons of sulphur in this old volcano.

The Mexicans have been getting sulphur out of the crater of this volcano for generations but only in small quantities, using the primitive windlass and rope with which to hoist sacks of sulphur from below. At the top the sacks are given to other laborers, who seat themselves on straw mats and slide with their burden

over the snow to the timber line. Here the sacks of crude sulphur are placed on mules for transport to the railway station, nine miles distant. The railway delivers them to the seaport of Vera Cruz, whence the sulphur is exported.

The American company which has purchased Popocatepetl will change all this, as Mr. Day Allen Willey recently wrote in the Scientific American. Arrangements have already been made to install pneumatic machinery, which will cut away all the rock formation that can be reached. As the sulphur deposits are in loose formation it is believed that the pick and shovel will do the rest.

The floor of the crater will be gridironed with runways. As the sulphur is mined it will be loaded into cars and hauled to the foot of the cableway consisting of a series of high buckets travelling along an endless wire rope. As fast as the buckets are filled with sulphur they will be hoisted to the edge of the crater, and then carried in much the same manner down the mountain side to a refinery which is to be built at its foot. When the impurities are extracted the refined product will be transported by another cable system to the railway, to be loaded into cars for Vera Cruz.

The flag of the United States is already floating above this great sulphur factory of nature, for the whole of Popocatepetl is now American soil by purchase.

C.P.R. Changes.

The contemplated changes in the C.P.R. construction department at Winnipeg, have been completed, and the bulletin of the reorganized engineering department has been issued. The resignation of J. G. Sullivan, divisional engineer of construction, necessitated a change in this department. In the future this work will be directly in charge of F. F. Stueder, assistant chief engineer, being handled from his office.

J. E. Schwitzer, formerly divisional engineer, has been appointed principal engineer in the reorganization scheme, and F. Lee, formerly resident engineer, has been named to take his position. As there is a amount of construction on hand or planned for western lines, provision has been made to have an engineer in charge of grade revision and double tracking from Winnipeg to Fort William, and John Callaghan will occupy a similar position on the line west.

WILL NOT ARBITRATE

Nelson, B.C., Aug. 23.—At mass meetings held at Fernie, Michel and Caribou the coal miners have decided to go out on strike and refuse to submit to arbitration the dispute which the management of the Crow's Nest Pass company wish them to do. The miners declare that the agreement to arbitrate was merely a clause in the agreement last June, which was to be for three years and that other clauses were broken and therefore, all were void.

President Sherman is of the opinion that the company must yield, else valuable contracts, which can be filled by other coal companies of the Pass, will be lost. The men were warned by President Sherman to keep because of the militia, and a miner in the hall declares drilled bodies of men are strengthening in Canada with whom the militia may have to deal.

The dispute is as to the wages of the blacksmiths, which the management will yield, and as to the movement of McGinty, which the management wish to arbitrate. Manager R. G. Driman says he is willing to arbitrate.

FELLOW JACK IN COURT

New Orleans, La., Aug. 23.—Prisoners, court attaches and hangers-on at the second criminal court were thrown into something of a panic when a genuine case of yellow fever was discovered in the dock. The man was found ill among a number of other prisoners and the doctor who was called promptly diagnosed the case as yellow fever. The screened ambulance immediately carried him into the emergency hospital. A flying squad was sent for and the dock and court room were thoroughly disinfected.

YOUNG ENGLISHMAN SUICIDES.

Winnipeg, Aug. 23.—E. J. Jenkins, a young Englishman, committed suicide at the C. P. R. railway depot by shooting himself in the right temple. It is supposed he was suffering from a fit of temporary aberration. Jenkins arrived here yesterday from the east. During the day he bought a return ticket for the old country, saying he intended leaving tonight. The deceased was recently employed as a steward on an Atlantic liner running from Montreal to Liverpool.

DIED

DUNLOP.—At Edmonton, on August 23rd, Alice Esplin, beloved infant daughter of Mr. and Mrs. John Dunlop, aged 2 years and 9 days. Deeply mourned.

N. W. 1-4 2-55-26, all fenced and cross fenced, soil black loam, nice creek runs across the land, 90 acres under cultivation; good frame house, stables and graineries of logs, good well, a splendid farm, 3-4 miles from school and post office.

N. 1-2 31-55-18; E. 1-2-55-18; W. 1-2 35-55-19, close to C. N. R.; soil black loam with some brush and small poplar on them, will sell separately or en bloc.

Township 56

N. E. 1-4 8-56-25, 85 acres under cultivation, 75 acres in crop; all fenced, frame house, 18x20 and addition 14x14, log barn 24x24; surface level, soil black.

N. W. 1-4 33-56-26 and S. W. 1-4 45-56-26, 125 acres under cultivation, good frame house, other buildings, logs, good well, all fenced, a splendid farm.

River lot 27 in the Edmonton district, 158 acres; 75 acres cropped; frame house, 6 rooms, stabling and grainery, 2 good wells. Coal along the river, all coal rights go with the farm.

CRAFTS & LEE

EDITORS TO MEET

Banff, Aug. 24.—Elaborate preparations are being made for the meeting of the Alberta editors in annual convention here. The association now numbers 45 members, and many of the delegates will be accompanied by their wives and daughters.

The work will commence this evening at eight o'clock at the Sanitarium hotel. Saturday will be devoted to pleasure. The special car provided by the courtesy of R. R. Jamieson, general superintendent of the C.P.R. for the accommodation of the delegates will be attached to the regular west bound express Thursday afternoon. It will be sent out to Banff and Saturday morning it will be attached to the regular train and carried into the mountains as far as the members decide to go. The programme contemplates going westward until the Sunday eastbound train is met, when the return trip will be made, reaching Calgary at Midnight Saturday. If the members prefer, the car will be sent to Glacier and held over until Saturday night, returning to reach Calgary at noon Sunday on the regular express.

A number of invited guests will accompany the special car and light refreshments will be provided.

The members are provided with transportation from their respective homes to Banff and return. From that point special arrangements to take care of the editors and their wives have been made by the secretary of the association, with the courtesy of Mr. Jamieson and his company.

German Immigrants

Chicago, Aug. 24.—A recent press report says that Dr. Emil Dorn of Chicago, author and publisher of a German "Guide Through America for Immigrants," has been notified that quite a number of farmers from the neighborhood of Magdeburg, Germany where they sold their sugar beet lands are on their way to the United States where they intend to acquire large tracts of land for the cultivation of sugar beets, and for the erection of a sugar refinery. Dr. Dorn, who since last fall, has secured homesteads for some 1,000 immigrants, has been asked to take the party to all sugar beet growing districts of the United States and will start on this trip in the beginning of August.

Interviewed in reference to this above statement which appeared in The Omaha Bee, Dr. Emil Dorn declared: "I am in communication with a considerable number of sugar beet farmers who have sold their farms in the old country and have asked me to select some lands in America adapted for the sugar beet culture. It was the intention of these farmers to send over at first a party of 20 or 30 men to look over the whole situation, and I had proposed to start about the 3rd or 4th of this month, but my clients had to postpone their departure from the old country on account of the delayed payment of the prices of their farms. Since then the whole situation had changed. I have received an offer from Canada, which appears at first far more favorable to my clients than the offer made me here. Should my clients to whom I have to submit the Canadian offer, see fit to go to Canada, I should take the party their without going over the lands offered in the United States.

CRICKET

The same team will play again next Saturday against Strathcona and is as follows: W. Richardson, H. R. Mountfield, H. B. and O. L. Boyes, A. H. Jones, E. Slocock, W. de V. LeMastre, R. H. Stinson, H. M. Williams, P. G. Robbins, E. Laroque. Umpires—C. Lucas and A. Clark. Scorer—R. W. Day.

It is hoped that Red Deer may play here on September 1, also that the club will be represented there and at Pine Lake on September 11 and the following days.

LOCAL

—There was one drunk in the precinct this morning, it cost him \$5.

—H. Madden was fined \$10 and costs for assaulting Walter Perree.

—The general committee for the funeral celebration will meet this evening in the council chamber. It is desirable that every member of the different committees should be present as the final arrangements of the programme will be made tonight.

—Lethbridge News: It is rather a sad commentary on the intelligence of humanity in general that fakirs can fly their craft and live. But someone has said that the public likes to

be humbugged, and it seems to be true. If it wasn't for the fact that there is always a gullible public standing around waiting to be gulled, those who live by gulling would starve to death. The coarse exhibitions of "skin games" and "fixed" machines which were witnessed on our streets this week were disgusting. But so long as these people find willing customers they are not to be blamed so much for taking their money.

PERSONAL

Mrs. Geo. Stevens and the Misses Byrnes, of Winnipeg, are visiting Mrs. J. L. Johnston, city.

Mr. H. Campbell, of the firm of McIntosh and Campbell returned from a trip to the coast last evening.

MANITOBA MARKETS

From the Commercial:—Wheat—1 northern \$1.01; 2 northern, 98c; 3 northern, 87c 3-4c; No. 4 extra, 69 1-2c; No. 4 wheat, 69c; No. 5 wheat, 61c spot or August delivery; these prices are for old crop. August delivery is quoted 1 northern, 91c; 2 northern, 88c. On the option market future delivery closed September 82 1-2c; October, 82 1-2c. All prices are for in store Foru William and Port Arthur. Oats—No. 2 white, 49c; No. 3, 37c; feed grades 36c; per bushel in car lots on track, Winnipeg. Barley—No. 3, 38c per bushel; No. 4, 36c per bushel, carlots on track here.

Madame Ledermann begs to notify the ladies of the city that, having worked for some years at dressmaking in the first establishments of Paris and the United States is now prepared to take orders on Clara street, the third house west of McDougall avenue. Her attention to orders and irreproachable work should be a sufficient recommendation. 196-201 chg.

The Committee of the Inauguration Ball wish to impress upon those who care to attend, the necessity of procuring tickets at once. In order that the Committee may know how many they have to provide accommodation and supper for, they have decided to stop the sale of tickets on the 28th instant. Tickets can be purchased at Archibald's and at Carpenter's drug stores, and from the different members of the committee. 194-196 tf chg

AN A1 INVESTMENT

An Adv. in the "BULLETIN"

OVER THE WIRES

SIR CHARLES IS ROBUST

Montreal, Aug. 23.—A cablegram received from London states that Sir Charles Tupper sailed for Canada on Monday. His entire recovery from his recent illness is announced coupled with the further statement that not in years has his health been so good. Sir Charles was eighty-three years of age on July 1 last. He will be accompanied to Canada by Lady Tupper.

STEAMER SEIZED

San Francisco, Aug. 22.—The steamer Australia, reported by cable from Tokyo to have been seized by the Japanese at Putropavlovsk harbor on Aug. 18, was a vessel well known to this harbor and along the Pacific coast. She belonged to the Ocean Steamship company and was chartered by Roth Firm & Co. of this city. She carried an assorted cargo of merchandise valued at \$54,000 destined for various parts of Asiatic Russia.

FIRE AT FAIR

Portland, Ore., Aug. 23.—Fire destroyed the State Room Inn, situated one block from the main entrance of the Lewis & Clark exposition and resulted in the death of two men, whose charred bodies have not been identified.

A number of occupants of the place, including four women and two men, were injured. They were removed to hospitals.

About 150 persons were in the building when the fire broke out. A search of the ruins revealed no more bodies, and it is believed that only two lives were lost.

MONEY AND TICKETS GONE

Moose Jaw, N.W.T., Aug. 23.—Mr. Wm. Horton, and wife, passengers on the Soo train en route from Savannah, Missouri, to Los Angeles, Cal., lost their pocketbook with \$200 and two round trip tickets to Los Angeles, Cal. Just before arriving at Moose Jaw, Mr. Horton said his pocketbook was safe in his pocket. He never had occasion to take it from his pocket until he was on his way west of here about twenty miles when the conductor called for his ticket.

Mr. Horton took the next train back to Moose Jaw and reported the matter to the officials. It is probably another case of robbery.

THE YELLOW FEVER

New Orleans, Aug. 23.—Fugitives from yellow fever continue their flight to the north, despite encouraging reports of the past few days of Federal experts who say that the infection is being overcome and will soon be eradicated.

It is the prophecy of some of the experts that the disease will be entirely wiped out in New Orleans within forty days.

With the general exodus to Northern and Western points, reports of suspected fever cases come from various places, notably Indiana, which state reports two cases, one at Crawfordsville and the other at Laporte.

Under the regulations established by the United States Marine Service a better system of quarantine is being put into force here as rapidly as possible.

FATALITY IN FRANK MINE

Frank, N.W.T., Aug. 23.—About 12 o'clock on Saturday miners were working in the Canadian-American Coal and Coke company's mine in number 4 chute. Two miners put in an overhead blast and then went away some distance and remained half an hour. Returning after the smoke had cleared away, the coal gave way, one man going down the chute and disappearing, while the other got hurled up to his armpits. The other miners got a rope around the victim to keep him from going down, but he expired before he was taken out. The other man was discovered away down the chute dead. The names of the victims are John Manskey and William Kolonowski. An inquest will be held tonight by Coroner Bench.

CORTELYOU FOR TREASURY

Washington, Aug. 23.—George B. Cortelyou, Postmaster General, will succeed Leslie M. Shaw as secretary of the Treasury, when the latter voluntarily retires next February. If he will accept the place, such is the opinion of those highest in official authority here. It is said that she offer has already been informally made and that Mr. Cortelyou has shown some hesitation about accepting preferring the work of the Post Office Department. Some unfavorable comment is heard in official circles over the brass band campaign inaugurated in India in behalf of Hugh H. Hanna for the Treasury portfolio. Those who know Mr. Hanna's line

sense of propriety believe the movement was without his authority and was started by politicians who wanted to get to the pie counter. If Mr. Cortelyou goes to the head of the Treasury Department, it is mentioned as one of the possibilities that Harry S. New of Indianapolis, who enjoys the President's confidence in a high degree, will get an offer of the place of Postmaster General.

CANADA IS BENEFITING

Montreal, Aug. 24.—A cablegram received by G. M. Bosworth, fourth vice-president and freight traffic manager of the Canadian Pacific railway, shows how the Chinese boycott of American goods is making itself felt in a very marked manner. The cablegram stated that enquiries were being made in China about Canadian flour, and that American shipments were falling off.

The fact that vast quantities of flour have been shipped from the United States to China and that these shipments are decreasing, will it is thought, prove a severe blow to American interests. "Canada already supplied China with some flour and local millers declare they are ready to increase the quantity to whatever is wanted. Canada can certainly supply China with a large amount of the soft wheat flour and practically unlimited quantities of the hard western spring wheat flour, and this looks like a splendid opportunity to extend our markets," was the opinion expressed today on the matter by Robert Melghen, president of the Lake of the Woods Milling Company.

ACROSS THE CONTINENT

London, Ont., Aug. 23.—Mr. and Mrs. H. S. Perley of Calgary, passed through the city on their way east. Mr. Perley, who was attired in buckskins, was provided with sidearms and carried a Winchester slung from the saddle. Spurs, tasso and other paraphernalia of the cowboy were visible. Mrs. Perley rode astride and wore a dark suit. They had four bronchos, two of which they rode, the others being used as pack horses, and they carried a complete camping outfit. Mr. and Mrs. Perley left on June 1 on their trip across the continent on horseback. They stopped a week or so in Winnipeg, and then rode to Fort William, taking the boat there and coming as far as Sarnia, reaching here this morning. Mr. Perley left for Hamilton, going thence to Toronto and on to Ottawa. Speaking of the west he says he found prosperity everywhere. The crops without exception were most abundant, and the cattle industry has had a very successful year. He spoke well of the government's irrigation policy in the west. Sixty miles of irrigation ditches had been put in west of Calgary, and already the waste places were beginning to blossom like the rose. Hundreds of miles of land were waiting for the completion of these ditches.

Lifebuoy Soap—disinfectant—is strongly recommended by the medical profession as a safeguard against infectious diseases.

The conditions under which my Pharaoh Cigar is made are ideal.

We have a contented little community of our own, that is not worried by outside conditions. The wholesome, country-town life that we live, tells in the quality of our work.

Every employee in my factory has his whole heart in his work. From the oldest workman, who started with me when I had a small room for a factory, a big bunch of enthusiasm and a high idea of quality, down to the lad who just joined us the other day, every one is putting the best that is in him into his work.

Under such conditions it is no wonder that my Pharaoh is the best ten cent smoke on the market. We are all working with the one object—to produce the best cigar possible.

I go to Cuba every year and buy the best tobacco produced. I know that every leaf that comes to my factory is right. My workmen see that every roll they give it will help make it a perfect, even-burning smoke. It is a combination that's hard to beat.

None genuine unless branded "Pharaoh." Price 10 cents.

Killed and Wounded: The War's Record

While it is possible that the list of casualties in the Russo-Japanese War may be greatly augmented before it is complete, yet in view of the growing feeling that peace will be shortly declared a calculation of the losses on both sides is opportune. From material furnished by the Tokyo correspondent of the London Times an accurate reckoning of the Japanese losses may be readily obtained. No such certainty is possible regarding the Russian casualties, the policy of the Czar being to conceal the worst. There are, of course, published lists of losses in most of the engagements but these must be considered as the minimum of Russian casualties. On the other hand the peculiarly solemn religious rites of the Japanese make it imperative that not one lost man should remain unaccounted for.

TWO RUSSIANS TO ONE JAP

Since June there has been practically no engagement, so that calculations made up till then will remain trustworthy. At the outside, therefore, the Japanese have lost 167,462, men killed, wounded and prisoners, while the minimum of Russian losses may be put at 388,480; that is to say, two Russians for every Japanese. By far the bloodiest battle of the whole war has been that at Mukden, which continued from February 19 to March 16. In this Titanic conflict the Japanese losses were 52,500, while no fewer than 152,500 Russians were killed, wounded or made prisoners. The second most costly engagement was that of Shaho, on September 14, 1904, where 29,201 Russians fell, and 15,873 Japanese. More than 17,000 Japs went down at Liaoxiang ten days earlier, and at least 25,000 Russians were accounted for in that engagement. Another fierce action was that of Tielieu in June, 1904, when nearly 10,000 Russians and 1,163 Japanese soldiers fell.

THE SLAUGHTER AT PORT ARTHUR.

As we glance down the comparative list we observe only one entry where the Japanese losses exceed those of the Russians. Needless to say that this exceptional record is that of Port Arthur, where 30,000 Japanese and 20,000 Russians were put out of action. Russia's naval casualties are given as 6,000 which estimate possibly errs in modesty. Japanese casualties are far less, but one would expect, being 3,670. In this department, however, it may be truly said that the score gives no idea of the game. In the matter of prisoners the most exact figures are obtainable, and from these we gather that there are 616 Japanese and 67,701 Russians in the hands of the enemy.

THE NAVAL LOSSES

Turning to the material of war, we find Japanese success in even greater proportion. Russia has lost 346,588 tons of fighting ships, while the Japanese navy emerges with a displacement 25,135 greater than when the war began. Russia has had fifteen first-class battleships engaged, and of these twelve have been sunk, two captured, and the remaining ship mutilated, while in armored cruisers, of seven belligerents five have been sunk, two captured, one interned, and two remain. Altogether of thirty-three Russian ships of all kinds in the struggle, fifty-seven have been sunk, seven captured, nineteen interned, and only ten remain. Two Japanese battleships have gone down, four cruisers, two destroyers, and four ships otherwise classified, making a total of ten; but not one has been captured or interned. Of the original seventy-six no fewer than sixty-four remain ready to continue the war. To Japan's credit in this account must be placed the battleships and cruisers raised at Port Arthur. Only the other day goodly additions were made to this record, and the Japanese hope to recover every ship there sunk. Certainly they are working harder to raise them than was necessary to send them to the bottom.

IN THE MATTER OF NON-COMBATANTS

Of non-combatant vessels captured Japan can answer for forty-five, while the Russian score is twenty-seven. The list does not include the Hull fishing fleet, but on the Russian side it does include at least a dozen Japanese fishing smacks, some caught in the exercise of their peaceful occupation, and some driven on a Russian coast through stress of weather. The Japanese captures have added forty-nine vessels to the mercantile strength of the nation. Of these fifteen belonged to Russia, and most of them were large craft. The other

nationalities represented in the craft captured by the Japanese were: Germany, six; England, ten; France, Austria, Norway and the United States, one or two vessels apiece. In no case have the Japanese sunk a non-combatant vessel. Russia, on the contrary, has sunk or burned every one out three vessels, and of these the fate of two is unknown.

WHY THE WAR SHOULD END.

One might find in this fact an explanation of the truth that general sympathy of the world is with Japan, if no other reason existed than the treatment the belligerents accorded alien vessels. Reviewing the record of the war to date, it is indeed difficult to see any reason for Russia to continue the struggle. Not a single victory stands to her credit. From the point of view of the world at large the argument for peace is strong. There have been half a million men killed and wounded in the awful conflict, and, as is ever the case in war, they have been largely drawn from a class that is the salt of their respective countries. Even the victor might well ask himself if, after all, the price secured was worth the price paid.

LOCAL

—Calgary is going to celebrate Labor day.
 —Calgary Liberals meet tomorrow evening to appoint delegates to a convention to nominate a candidate for the Alberta legislature.
 —The old timers' log cabin on top of the arch at the Alberta hotel would be safe from their wolves in its present elevated position.
 —The frame work of the plans double arch at the Imperial bank corner is being erected today. It is to be the crowning triumph of the decoration committee work.
 —Mr. C. H. Gibson who has been suffering from blood poison and was treated at the general hospital is able to be about again and will be able to attend to business again in a few days.

—The total number of patients treated in the Winnipeg general hospital during the week ending August 19, was 326, of whom 201 were men, 81 women and 44 children; 89 outpatients were also treated.

—An exhibit of grain and other farm products is being arranged for in the large show windows of the Cameron building, opposite Revillon & Sons store. Farmers are requested to bring in samples of farm products for this purpose. Let there be a generous supply of the best that we may give the visitors to the city some adequate conception of the farming district around Edmonton.

—The Imperial Bank have increased their capital another five hundred thousand dollars, the stock being sold at a premium of \$200.00 or a profit of half a million dollars. This has been added to the reserve fund, the paid up capital is now \$3,500,000.00 and the Reserve fund also \$3,500,000.00. The bank has opened new branches at the following places:—Cobalt and New Lusk: New Ontario, Ridgeway, Ontario; North Battleford, Sask.

—Alberta Star: There is considerable talk about "Jim Hill" building Cardston. Come on "Jimmy" old boy! We have the district, the grain, the coal, the minerals and everything else; with stock for your cars, oil for your wheels and timber for your roads. The company that connects Cardston with the north of the Crow's Nest will have it right in the "mit" for many years to come. The great Northern are making things fly in British Columbia and we hope that they will put us on the wing too.

—The prize offered by the Buchanan Nursery Co., of St. Charles, Man., for the finest sample of wild gooseberries, has been awarded to Rhoda Twiss, of Cardston. Samples were received from all parts of Manitoba and the Territories, about half of the total number coming from Alberta. Many of the samples were equal in size and quality to the smaller varieties of cultivated berries, and are well worthy of cultivation. The number of fine samples from Alberta would indicate that this section of the west should be well adapted to the growing of small fruits, for where wild fruits flourish, the hardy varieties of small fruits should do well under proper methods of cultivation.

—Farm and Ranch Review: The Farmers' Congress of Texas, an annual event in that state, will shortly take place. It is interesting to note that the Southern Pacific Railway has just issued a circular in which the announcement is made that free

transportation to the point of meeting will be given to any bona fide farmer living along that system's lines. Such action on the part of a Canadian railway is absolutely unheard of. And yet Canadian roads were heavily subsidized by the government and have often enormous land holdings, while United States railways, as a rule, undertook construction purely as a business venture. The latter, however, are generally endowed with a vision that penetrates beyond the immediate financial returns. It generally pays to not hold the copper so close to the eye that one loses sight of the sovereign behind it. This, however, is a lesson that Canadian railways have yet to learn. Agricultural development lies at the very basis of their success and requires little or no attention at their hands.

—The Canadian branch of the American Society of Equity is supplying four wagon loads of grain for arch decorating in the city. It will be brought in this afternoon. The work of getting up the decorations will be well advanced this week.

GOVERNOR-GENERAL'S TRIP.

Ottawa, Aug. 23.—The trip of the governor-general and Lady Grey to Manitoba and the Northwest Territories will occupy not less than six weeks. They will attend the ceremonies for the inauguration of the provinces of Saskatchewan and Alberta, at Edmonton and Regina, on September 1 and 4, respectively. At each place an escort of 200 N.W.M.P. will be provided. Their excellencies will subsequently go to the Macleod district and visit one or more of the Indian reserves. Next they will proceed to the Prince Albert district, where his excellency will put in three or four days shooting.

A visit to southern Alberta to view some of the cattle ranches and settlements will follow. Earl Grey is anxious to see as much of the settlements and industrial life as possible to examine within the comparatively limited time at his disposal will escape his attention. It is probable that visits to the C. P. R. irrigation works to the Mormon settlement around Cardston and the coal mines at Lethbridge will be arranged for. The vice-regal party will remain for a week or more in Manitoba and will give up several days to Winnipeg. During the stay in the Northwest a camp will be pitched at Qu'Appelle lake to which her excellency can repair for a rest whenever she is tired of sight-seeing.

A FATAL WRECK.

On Saturday about noon a ballast train operating on the C. N. R. main line at Narvin, about five miles east of Winnipeg, was wrecked, the fireman, Jack Kennedy, receiving injuries from which he died soon after his removal to the hospital; and the engineer, D. Powers, suffering painful injuries.

The accident is almost inexplicable. The engine and tender, in reversed position were hauling a string of cars, loaded with gravel, the train moving at the rate of about 18 to 20 miles per hour. A brakeman was on the lookout on the tender, and, as it happened, this brakeman had had a great deal of experience also as a trackman. If anything had been wrong with the track he would have been almost certain to observe it. The conductor had gone back to the rear end of the train to do some writing. With no warning whatever the crash came. It is thought that the tender must have climbed to the rail, that is, the flange of the wheel must have in some way been crowded up and over the rail. There is no curve in the track, it is said, at this point. The tender was at once thrown across the track, the engine was dished and the cars piled up, the engine crew being pinned beneath it. When the wounded men had been removed from the wreck they were placed upon a hand car and taken to the city. The fireman Kennedy, was removed to St. Boniface hospital, where he died but a very short time after his arrival.

Engineer Powers, who was removed to his home was found to have had a shoulder dislocated, one hand crushed, and to have sustained some bruises about the face and head. None of his injuries, however, are considered serious and he will likely be able to be up and about in a day or two. Dr. Charles McKenzie and R. M. Simpson, attended the men on their arrival in Winnipeg.

The railway officials will hold an investigation and enquire fully into the causes leading to the wreck.

 FLAGS

At the

Hudson Bay Stores

We have just received a big consignment of

FLAGS
 AND
 Bunting

for the Ceremony on the
 1st of September.

Everyone should make it a duty to decorate their homes for this great occasion.

We would also ask all those intending purchasers to select or place their orders with us at their earliest convenience to avoid the rush of the last few days.
